

U.S. MOTORS®

A *Nidec* brand

Aegis® Ground Rings

Cored holes on the end shield are now a STANDARD feature for attaching Aegis® Shaft Ground Rings on all Nidec 140, 180 and 210 frame size ODP motors

Cat Number	Description
60	Shaft grounding ring kit 140 frame
61	Shaft grounding ring kit 180 frame
62	Shaft grounding ring kit 210 frame
63	Shaft grounding ring kit 250 frame

Benefits:

- Specifically designed to discharge harmful shaft voltages from VFD high-frequency switching and extend bearing life
- Easily installed on motor end bell using the (2) included screws
- Slim design minimizes shaft length requirements
- Estimated life is greater than 200,000 hours
