

HMG**X1P

SPECIFICATIONS

Application

- 2 - 5 ton systems
- Sequenced for demand management
- External access to heater circuit breakers

Installation

- 1 piece design
- Smaller profile for closet applications
- Multi-position = Upflow/ Horizontal Left/ Horizontal Right/ Counter Flow (with kit)
- Approved for installation in manufactured housing and mobile homes

Cabinet

- Foil faced insulation for enhanced indoor air quality
- Double hemmed technology for increased structural rigidity
- Improved gasketing on doors to reduce air leakage
- Filter rack with thumb screws for easy access and removal
- Polymer plugs on drain locations for easy installation
- Baked polyester paint finished over galvanized steel for maximum durability
- High strength/heat resistant/corrosion resistance SMC drain pans
- Antimicrobial treated drain pan to resist mold and mildew growth
- Meets 2 % or less air leakage

Coils

- Total corrosion protection technology designed coil
- Enhanced tube-and-fin coil design featuring MHT™ Technology
- Lanced fins for maximum heat transfer
- Factory leak tested and pre-charged with nitrogen holding charge

Components

- Efficient Constant Torque blower motors
- Standard transformer and blower relay
- Field installed 2.5, 5, 7.5, 10, 12.5, 15, and 20 kW electric heat kits with ease of assembly quick wire connectors
- Built-in indoor time delay for increased efficiency and comfort

Accessories

- Single point power kit

Comfort-Cire®

ENHANCED AIR HANDLER

Constant Torque Motor

Warranty—6 years on parts
(Some limitations apply; see printed warranty for details.)

www.marsdelivers.com

MODEL NUMBER GUIDE

1. For 208 volt use .751 correction factor for kW and Btuh
2. 12.5kW, 15 and 20kW (2 stage models) require 2 supply circuits
3. Circuit #1 includes blower motor amps except 20kW models

All data given while air handler is operating with a wet coil and without air filter installed.

Speed tap 1 to be used for continuous fan operation.

Speed tap 2 to be used for cooling speed of 1/2 ton smaller outdoor unit match. Speed tap 3 to be used for cooling speed of nominal tonnage match.

Speed tap 4 to be used for heating speed for units with electric heat. This is the minimum speed for heating. Speed tap 5 to be used for high static applications.

Comfort-Aire®

"This product complies with all California product labeling laws including, but not limited to, the Safe Drinking Water and Toxic Enforcement Act of 1986, more commonly known as Proposition 65."

Due to ongoing product improvements, specifications and dimensions are subject to change and correction without notice or incurring obligations. Determining the application and suitability for use of any product is the responsibility of the installer. Additionally, the installer is responsible for verifying dimensional data on the actual product prior to beginning any installation preparations.

Third party incentive and rebate programs have precise requirements as to product performance and certification. All products meet applicable regulations in effect on date of manufacture; however, certifications are not necessarily granted for the life of a product. Therefore, it is the responsibility of the applicant to determine whether a specific model qualifies for these incentive/rebate programs.
