

HS19002

PRO-A[®] ADVANCED REJUVENATOR & CONDITIONER QUICK SERVICE KIT

Pro-A[®] extends compressor life and reduces noise, improves A/C system lubrication and reduces friction. It conditions and revitalizes the A/C system while reducing energy consumption. Compatible with all refrigerants and refrigeration lubricants. It's polymer-free, tested to be non-clogging to the A/C compressor and recovery equipment.

Features/Benefits

- Frees sticky expansion valves
- Increases system lubrication up to 1200%
- Extends System Life and Quiets Noisy Compressor
- Lubricates moving metal parts in sealed system
- Renews O-Ring and Seal Elasticity
- Increases metal's resistance to oxidation up to 78%
- Decreases equipment maintenance

Applications

- Solenoid valves
- Reversing valves
- Pressure regulating valves
- Compressor unloaders
- System service valves
- Shut off valves
- Ball valves

Targets gummy, sticking and binding TXV's and other system components caused by modern refrigerants and oils.
